

Safety is no accident

Pacific Railcar Operators

A non-profit NARCOA affiliate serving the West

General Order # 6

- 1998.6 Spark arrestors are required at all times.
- 1998.8 Smoking is prohibited on railroad property at all times.
- 2001.1 Starting February 1, 2002, all operators must measure and attest that railcar wheel fillet thicknesses exceed the minimum NARCOA standard.
- 2015.1 All operators and passengers must wear boots while on RR property.
- 2022.1 All motorcars shall be equipped with a two-way narrow band radio, programmed with the three NARCOA frequencies.
- 2024.5 While loading and unloading motorcars from a trailer/transport vehicle, the motorcar must be under the control of a winch system capable of stopping the motorcar and holding the motorcar position on the inclined ramps. Transferring a motorcar by freewheeling of the winch system, mechanically unrestrained rolling, or driving off or on a trailer/transport vehicle is prohibited. No one shall be in or on the motorcar during loading/unloading process. Any other method of loading/unloading a motorcar must have pre-approval of the EC. As in all aspects of a NARCOA sponsored excursion, the EC has the final word.
